UNICORN SAND

The Enchanted Nanny says: "Can you label Dreamer the Unicorn below too?"

METHOD

1. In a bowl mix the sand, corn starch and glitter.
2. In a separate bowl, combine water, dish soap and food colouring gently (so as not to activate bubbles in the dish soap).
3. Pour wet mixture into dry mixture and stir or knead to combine. If mixture is too dry, add water 1 tsp at a time until it feels like beach sand and is shapeable / mouldable.
4. Store in an airtight container.

INGREDIENTS

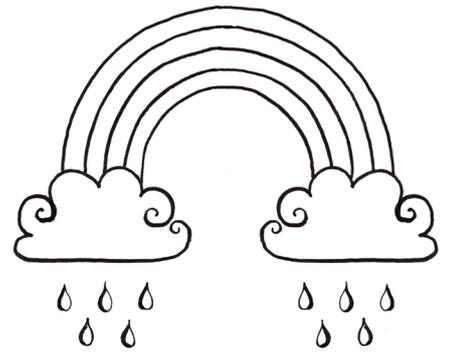

- * Very fine, white sand
(or substitute colourful sand if you don't plan to tint it yourself).
- * Corn Starch
(this helps the sand get the right consistency)
- * Dish Soap
(this improves the texture, acts as an anti-bacterial agent and helps the sand smell nice)
- * Water
- * Food coloring in bright, fun colors
(any food coloring will work for this)
- * Fine glitter
